

## OFFICIAL CROP REPORT.

FAVORABLE NEWS FROM ALL PARTS OF THE COUNTRY.

Corn &amp; Rice—Wheat and Rust Do Some Damage in the Cotton States—Some Drought in Texas, Missouri, Illinois, Indiana, West Virginia, Iowa, and Idaho.

WASHINGTON, Aug. 20.—The weather and crop bulletins, issued to-day by the Weather Bureau, contains the following reports from States:

New England—Crops have advanced and ripened rapidly; potato blight and decay increasing in southern and appearing in northern districts.

New York—Warm and showery; very favorable for corn and late potatoes.

New Jersey—All crops continue in splendid growing condition, except in the southern section; peach crop poor.

Pennsylvania—Injurious drought extending and becoming general, and causing crops to ripen prematurely.

Maryland—Drought seriously injured corn, especially in portions of western part of State, and shattered tobacco, tomatoes, late potatoes, and other growing crops.

Virginia—Rain much improved condition of growing crops; corn and tobacco greatly benefited; fruit plentiful; pastures improved.

North Carolina—Rains assure excellent corn crop; cotton becoming grassy, with some rust; tobacco excellent, and curing in fine condition.

South Carolina—Cotton in general condition little changed; early and late corn assured by big crop.

Georgia—Frequent rains, too much for bottom lands; cotton shedding badly; picking begun in favored localities; corn generally in fine condition.

Florida—Excessive rains effect cotton unfavorably; food products very satisfactory.

Alabama—Cotton fruiting slowly and much complaint of rust, shelling, and bolt rot; also wheat, corn, and cotton.

Mississippi—Pests damaging cotton locally; a fine crop generally.

Louisiana—Cotton, sugar, cotton, and grain showing improvement over northwest, where needed showers fell; cane receiving too much rain.

Texas—Cotton crop suffering from drought over the southwest; a good crop of corn is being gathered; the rice crop continues good.

Arkansas—Cotton, corn, and tobacco in all crops; cotton shedding badly; picking begun in favored localities; corn generally in fine condition.

Kentucky—In northeast portion, corn and vegetables drying; elsewhere corn and tobacco, while doing well, are needing rain.

Missouri—Late corn is needing rain in many counties; rain is also needed for pastures and ploughing.

Illinois—Early corn practically safe; late fields in need of drouth; dry corn, while doing well, pasturing dry; stock being fed with fodder.

Indiana—Corn not seriously affected by dry weather; tobacco doing fairly well; pastures dry up; fruit abundant.

West Virginia—Corn, grass, and buckwheat need rain; streams and springs low and water scarce.

Ohio—Tobacco, pastures, potatoes, and some gardens poor; in many localities drought not ended; broken; corn is in generally good condition.

Michigan—The past week's weather has been generally favorable; fruit, except apples, plenty.

Wisconsin—Corn, potatoes, and buckwheat improving and maturing in good condition.

Iowa—Soil moisture in all parts of State very beneficial; corn fast maturing.

Low—Late corn somewhat injured by drought; other crops in fair condition.

North Dakota—Corn has done some damage in parts of State; corn backward and uncertain; small grain very good.

South Dakota—Corn not damaged in many localities; condition of corn not satisfactory.

Nebraska—Very favorable week; late corn and pastures in good condition.

Dakota—Favorable weather for growing crops in the eastern portion; late corn nearing maturity.

Oklahoma—Generally all crops have improved.

Montana—Killing frosts in some portions on the 14th; farmland covered with grain.

Wyoming—Weather still continues fine for sowing and harvesting grain.

Idaho—Unirrigated crops and meadows dry; irrigation water still sufficient; fruit offering; early grain satisfactory; late grain deficient.

Colorado—Condition of corn excellent in north central sections; fruit shipments heavy from eastern portion.

New Mexico—Weather has turned warm and dry; excellent for maturing and harvesting corn, cotton, and various vegetables.

Arizona—Condition of ranges, crops, and live stock is satisfactory in a high degree.

Utah—Generally in good condition, except in northern districts, where they are indifferent.

Washington—Unfavorable weather for fruit and vegetable culture; not done well; hope very badly infested with lice.

Oregon—Spring grain poor; hope continue good in the fall.

California—Excellent fine weather for fruit drying and raisin curing, and for all summer crops.

Court Calendars This Day.

SUPREME COURT—GENERAL TERM—Recess. CHAMBERS—Motion calendar called at 11 A. M. SPECIAL TERM—Adjourned until 1 P. M. for the term. CHAMBERS—Part I, II, III, and IV—Adjourned for the term.
